

## ISAZ/WALTHAM HAI Collaborative Research Award Application – 2016

|   |  |
|---|--|
| <b>Title of study</b>   |  |
| <b>Title, first name, surname and job title of principal applicant (and doctoral advisor if applicable; requires Ph.D., Ed.D., or equivalent)</b> |  |
| <b>Title, first name, surname and job title of all other applicants</b>   |  |
| <b>Contact details for principal applicant: address, country, telephone, fax, e-mail</b>  |  |
| <b>Address(es) at which study will be conducted if different from above</b>   |  |
| <b>Summary of relevant experience of principal applicant (and doctoral advisor if applicable)</b>   |  |
| <b>Relevant references of principal applicant, doctoral advisor or research group</b>   |  |
| <b>Project Proposal (no more than three pages)</b>  | Please attach separate pages addressing uniqueness, adequacy, and feasibility of approach, clear hypotheses, aims, and value and contribution of the work. Please include sections such as Introduction, Aims and Hypothesis, Method, etc.   |
| <b>Budget breakdown – please be as specific and accurate as possible; justify each expense in relation to the project</b>                         | Please attach separate pages of text to describe the budget and then append a separate spreadsheet containing numeric details, but it should be noted that this funding mechanism <u>requires funds for indirect/overhead costs (up to 10%) to be included the total award request</u> |

|   |  |
|---|--|
| <p><b>Protection of Human Participants</b></p>  | <p>Please attach separate pages as necessary to describe your proposed study with regards to each of the following points:</p> <ul style="list-style-type: none"> <li>• Human subjects involved (number and demographics)</li> <li>• Method of recruitment and informed consent</li> <li>• Potential risks to subjects</li> <li>• Protection against risk</li> <li>• Potential benefits of the research to the subjects/importance of the knowledge to be gained</li> <li>• Data security and safety monitoring</li> </ul> |
| <p><b>Protection of Animal Participants</b></p> | <p>Please attach separate pages as necessary to describe your proposed study with regards to each of the following points:</p> <ul style="list-style-type: none"> <li>• Animals involved and characteristics</li> <li>• Source and ownership of animals</li> <li>• Potential risks</li> <li>• Protection against risk</li> <li>• Potential benefits of the research to the animals/importance of the knowledge to be gained</li> </ul>   |

## Ethics Certification

I confirm that every effort will be made to ensure that the proposed research will not result in pain or suffering of participating animals and that no animals will be euthanized as a result of this study. I also confirm that Certification of Humans Subjects Board/Institutional Review Board and Institutional Animal Care and Use Committee/Animal Ethics Committee approval including the title of the project, name of the program director /principal investigator, date of approval, and appropriate signatures and a copy of the approved informed consent form (if applicable) must be received by the WALTHAM award administrator prior to transfer of funds to the grantee institution.

**Signature of Principal Applicant**

**Date**

## Award Conditions

- Funding to cover institutional overheads is limited to 10% of the total award value, within the overall award limit
- The selected research projects will be conducted in collaboration with Dr. Nancy R. Gee, Research Manager - Human-Animal Interaction, WALTHAM Centre for Pet Nutrition and a representative of the International Society of Anthrozoology

**Signature of Institutional Official**

**Date**

## Appendices

Please include each of the following as appendices to your application:

- **Project Timeline**
- **Budget spreadsheet and justification**
- **References**
